

World's Finest Products For Harley-Davidsons

# INDEX

## WE ARE COMMITTED TO THE MOTORCYCLE INDUSTRY

At Custom Chrome®, we don't just want you to buy our parts. We want you to be a lifelong customer. We are concerned about your well-being and safety and we want to help you enjoy the experience of riding motorcycles - long into the future. That's why we support the work of organizations like the Motorcycle Industry Council and the Motorcycle Safety Foundation® to increase motorcycle safety awareness.

Custom Chrome is proud to support these associations and their efforts to make riding a safer experience for all.

The Motorcycle Safety Foundation has five key rules of the road that we know reduce the likelihood of crashes and fatalities. They are the simple facts For living and riding a long time.

- Get trained by the MSF and licensed by the DMV
- Wear all the gear all the time - especially a DOT-label helmet
- Ride within your own limits - not too fast and not too far
- Be a lifelong learner - keep coming back for refresher training
- Don't ride impaired - never drink and ride

Even if you have many miles behind the handlebars, we encourage you and your friends to keep improving your skills. The more you know about riding, the more enjoyable it is. And we encourage new riders to begin the right way, with proper training by the professionals. Remember, when we all learn to prepare for riding on the roads, everybody is safer and benefits from the experience.

**Ride smart. Ride safe. Ride forever.**

Custom Chrome is proud to support the efforts of organizations like the Motorcycle Industry Council and the Motorcycle Safety Foundation for their efforts in making riding a safer experience for all.
